### **Capturing your family:**

I want to help you capture special moments and life long memories of your family. These shoots are at a location of your choice or you can ask for recommendations. There are plenty of studios you can go to if you want traditional posed shots - I want to capture the moments, joy and love of your family. A park, playground or picnic is often the perfect setting to bring out the smiles and laughter of your family as you spend time together. Some of the best pictures can also be captured as your family engages in a shared activity such as baking together, playing a game together or just spending time going for a walk.

Images are shot in high resolution digital format and you will receive high resolution, touched up jpeg images approximately three weeks after the shoot.

For families wishing to do regular portrait sessions of their children or family, there are discounts and specials. Please let me know if you are interested in this and I can provide more information.
