With so many senior picture studios out there, you pay too much and don't even receive the final high resolution jpeg images to print and share as you choose! I believe you should be able to have more freedom with your pictures. That's why I've set up the "everything" package.

You get a two hour photo session, multiple locations and unlimited outfit changes along with 30 high resolution images with printing rights! On top of that, you'll get lots of wallets, a 6 image proof set in a tri-fold display, a professionally printed 8x10 and more.

Don't settle for a "cheap" or "free" photo session only to pay more than six hundred dollars on expensive prints and never receive your images on disk. You should be able to print and share your images with your friends and family, email them, put them on your MySpace and web site and you shouldn't have to try tracking your photographer down ten years from now to order more prints! Other studios won't offer you this option and force you to do all your printing through them, but I believe you should be able to print, keep and share your own pictures. Senior portraits should be about you and giving you what you want.

The "Everything" package is set up to give you what you want for a price you'll be happy with. Contact me soon to set up a senior portrait session that's all about you!
